

Thursday April 7 and Friday April 8, 2011, 8 a.m. – 5 p.m.

This Workshop brought together top researchers to present a summary of the current state of research, diagnosis and treatments for ME/CFS. Impediments to research and opportunities for communication were discussed. Patient advocates have helped plan the agenda and also made presentations.

The meeting was videocast in its entirety and is archived for viewing after the event. Since this event is in the past, you may need to scroll back several pages on "Past Events" to find it.
